B. **Regional Sustainable Infrastructure Planning Grant Application [APPROVE]**

**Summary:** Fresno Council of Governments (FCOG) released a call for projects for Cycle 3 for the Regional Sustainable Infrastructure Planning Grant Program. FCRTA, in partnership with the City of Kingsburg, City of Selma and City of Fowler, is proposing a project submittal for $163,915 total funding for a feasibility study to investigate a monorail system from the City of Kingsburg connecting to downtown Fresno. The feasibility analysis would provide basis for short-term, mid-term, and long-term ridership...
projections based on projected land uses, employment trends, trip times, and fares; key performance metrics, including projected revenues, farebox recovery, operations and maintenance costs, passengers per mile, costs per mile; potential regional, state, and federal funding sources; public-private partnership opportunities; electricity needs and sources; opportunities for TOD at stations; and other critical issues. This feasibility study would investigate whether introducing a monorail system along Golden State Boulevard parallel to SR 99 from the City of Kingsburg to downtown Fresno would mitigate impacts on the traffic congestion, VMT, safety and GHG emissions along this corridor. The City of Fresno is in support of this proposed application. Attached is a preliminary study area map for your review [ATTACHED].

**Action:** Staff recommends Board approval of the Regional Sustainable Infrastructure Planning Grant Application in the amount of $163,915.

C. **FRA Integrated Mobility Innovation Grant Application [APPROVE]**

**Summary:** The Federal Transit Administration (FTA) released a call for projects through the Integrated Mobility Innovation Program. FCRTA in partnership with three (3) 501(c)(3) private non-profit organizations; Fresno Metro Ministry, CALSTART and Inspiration Transportation, is proposing a project submittal in the amount of approximately $750,000 total funding for a demonstration project that will provide rides for residents in rural and urban Fresno County locations to health care appointments using electric vehicles. This demonstration project will blend the reliability of public transit with the flexibility of light duty electric vehicles and advanced smart phone applications to increase personal mobility for low income residents in disadvantaged rural communities.

**Action:** Staff recommends Board approval of the FTA Integrated Mobility Grant Application in the amount of approximately $750,000.

D. **Reedley Transit Transition Update [INFORMATION]**

**Summary:** The Board approved in June 2019 to transition Reedley Transit services to FCRTA. As of July 1, 2019 the services have been transferred from the City of Reedley to FCRTA which are operated by the subcontractor MV Transportation. It was a successful transition due to cooperation with the City of Reedley staff and the various notifications provided to the passengers including flyers, voicemail and visits to the Senior Center. There are currently three (3) full-time drivers for the Reedley in-city services and one (1) dispatch staff person has transitioned to MV.

FCRTA will be reviewing the (2) other transit services, Coalinga and Kerman, to evaluate efficiency, cost benefit to the cities and the possibility to transition over to FCRTA to be operated by the subcontractor MV Transportation in FY 2020-2021.

**Action:** Information only. The Board may provide additional direction at its discretion.

E. **Voter’s Choice Act [APPROVE]**

**Summary:** Legislation now provides that all California counties have the opportunity to transition to the Voters Choice Act (VCA), California Elections Code sections 4005-4008, in 2020. The VCA authorizes a county to automatically mail every voter a ballot, provide additional secure ballot drop-off boxes located throughout the county and to establish regional Voting Assistance Centers, replacing multiple precinct locations. Voting Assistance Centers will allow voters to cast a ballot in-person at any vote center in their county. The Fresno County Board of Supervisors voted to transition to the VCA election model in March 2020, rather than continuing with the current precinct model. In coordination with the VCA election model, FCRTA will be providing free fares for passengers going to voting centers.

**Action:** Staff recommends Board approval Resolution No 2019-11 approving the Voter’s Choice Act and free FCRTA fares for passengers going to voting centers.

Janelle informed the board that the Short Range Transit Plan for Rural Fresno County (SRTP)
2020-2024 area has been developed by the Fresno Council of Governments (Fresno COG), and
updated by FCRTA. The SRTP for the rural Fresno County area provides a five (5) year action-
oriented program to implement the Public Transportation Element of the Regional Transportation
Plan (2018) and the document is updated every 2 years.

The SRTP includes a description of our existing transit services both demand response and fixed
route services serving the 13 incorporated and 29 unincorporated communities in rural Fresno
County. For the intra-city routes the disabled and seniors fares are free for these demand
response services which we subsidize with the local Measure C funding.

The SRTP is also consistent with the recently adopted Fresno County Regional Long-Range
Transit Plan (LRTP) 2019-2050. Which includes our LRTP project list including our aggressive
transition to an electric fleet as well as our new maintenance and operations facility in the City of
Selma, and deploying our electric buses on existing inter-city routes (KRC and Southeast) and 2
new inter-city express routes (Orange Cove and Coalinga) which will take place this fiscal year.

Last part of annual we have quite a few major projects we are not only a transit agency but we also do a lot of infrastructure especially in the city yards which include CNG unites, automated gates, security lighting and camera systems.
